SUMMARY

Computer Science Engineering student with hands-on experience in HTML, CSS, JavaScript, Java, Python, AI/ML, REST APIs, and database technologies. Experienced in developing full-stack and AI-powered applications, integrating APIs, building responsive user interfaces, and solving real-world problems through software and AI-based solutions. Strong foundation in OOP, Data Structures & Algorithms, DBMS, and software development, with a quick-learning mindset and adaptability to new technologies.

EDUCATION

Pursuing B.E in Computer Science and Engineering Jyothy Institute of Technology, Bengaluru Visvesvaraya Technological University (VTU), India	9.32/10	2023-2027
RNS PU College	88%	May 2023
DAV Public School	78%	Apr 2021

TECHNICAL SKILLS

Programming Languages: Java, Python, C, SQL, Dart, PHP
Front-End: HTML, CSS, React.js, Next.js, Flutter, Tailwind CSS
Back-End & APIs: REST APIs, Node.js, Express.js, JSON
Databases & Cloud: MySQL, MongoDB, Firebase, Cloud Firestore, Google Cloud
Mobile Development: Flutter, Firebase, Android Development
Concepts: OOP, Data Structures & Algorithms, DBMS, AI & Machine Learning
Tools/Libraries: VS Code, Eclipse, Jupyter, Git, GitHub, Postman, Vercel, Android Studio, Apache NetBeans

CERTIFICATIONS

SAP – SAP Professional Fundamentals – Coursera	Aug '26
Google Cloud Computing Foundations Certificate	Mar '25
Web Development Certificate — Alpha Tech Academy Solutions	Sept '24

ACADEMIC PROJECTS

MediAssist – AI-Powered Smart Healthcare Management System

- Developed an AI-powered healthcare application using Flutter, Firebase, Python, TensorFlow, and OCR, featuring prescription analysis, medication reminders, AI-based symptom analysis, doctor appointments, and separate user/doctor panels.

InterVue AI – AI-Powered Voice Interview Platform

- Developed an AI-powered voice interview platform using Next.js, AWS, AssemblyAI, and LLMs, enabling automated interview generation, real-time voice interaction, AI-driven evaluation, and interview persistence using DynamoDB.

Gesture Controlled Infotainment System

- Developed a computer vision application using Python, MediaPipe, and OpenCV for real-time gesture recognition with an interactive web dashboard and map navigation.

VIRTUAL EXPERIENCE

Deloitte Australia – Data Analytics Virtual Experience | Forge

- Currently working on a job-simulated data analytics project involving data analysis, business insights, and client-focused problem solving.
- Applying analytical techniques to interpret data and develop actionable business insights.

LEADERSHIP & ACHIEVEMENTS

- 2nd Place – WebXellence 2025** – Secured 2nd place in the web development competition.
- 3rd Place – WebXellence 2024** – Secured 3rd place in the web development competition.
- Consolation Prize – CSI Coding Challenge** – Recognized among top participants in the coding competition.
- Outstanding Student Award** – Recognized for academic excellence in all three years of engineering.
